SUMMARY

Full-stack web developer skilled in creating responsive, efficient, and user-focused applications. Known for adaptability, clean coding practices, and a strong ability to deliver high-quality solutions using modern technologies like Vue.js, React.js, and Node.js.

EXPERIENCE

Founder & Full-Stack Developer @ ToolCraftr	Jul 2025 - Present
■ Built a production utility platform using Next.js and TypeScript with a Python (Flask) backend for PDF and media tools.	
■ Developed an interactive, responsive PDF editor with React and Tailwind CSS.	
■ Implemented backend PDF processing with PyMuPDF for document transformations.	
■ Designed scalable services with optimized asset handling and caching for fast exports.	
Front End Web Developer @ Reachabl	Jun 2024 - Jun 2025
■ Developed and optimized a dynamic user interface using Vue.js and Pinia	Remote
■ Integrated backend APIs to ensure seamless data flow and application functionality.	
■ Built a React micro-frontend with tldraw for whiteboard features, bundled with Webpack and integrated into Vue.	
■ Designed and implemented CI/CD pipelines using GitHub Actions, reducing deployment cycles by 20%.	
Full Stack Web Developer @ Capsule Hotels Blog	May 2024 - Jun 2024
■ Implemented the front end using HTML5, CSS3, and jQuery to create a responsive and visually appealing UI	Remote
■ Developed custom WordPress templates and integrated them with the CMS using PHP	
Full Stack Web Developer @ NovinaNet	Feb 2024 - May 2024
■ Designed and developed a dynamic marketplace platform using MongoDB, ReactJS, and NodeJS	Monastir, Tunisia
■ Following the MVC architecture	
■ Implemented API integration for seamless sales management by sellers, demonstrating strong back-end and front-end proficiency	
■ Enhanced application security by introducing robust authentication measures, ensuring secure access control	

PROJECTS

TrendyShop Full-Stack E-Commerce Web App	
■ Developed a modern, full-stack e-commerce application with a responsive React.js frontend and a NestJS backend	
■ Managed product data using MongoDB and implemented secure JWT authentication for users.	
■ Integrated Stripe for payments and Cloudinary for image uploads, ensuring a smooth shopping experience.	
■ Designed a modular, scalable architecture for maintainability and future feature expansion.	
FinTrack+ Personal Finance Dashboard	
■ Developed a full-stack finance dashboard with authentication, portfolio tracking, and expense management.	
■ Integrated live market data from external APIs and implemented interactive charts using Chart.js for clear visualization of spending and investments.	
■ Built a React.js frontend and Node.js/Express.js backend with MongoDB for secure data storage and RESTful API communication.	
■ Applied modular and maintainable design patterns to support future feature expansion.	

EDUCATION

Faculty of sciences of Monastir	2025- 2027
Master in Information Systems Engineering	
Faculty of sciences of Monastir	2021 - 2024
Bachelor of Science in Software engineering	

TECHNICAL SKILLS

Frontend / UI: JavaScript, TypeScript, React.js, Vue.js, Tailwind CSS, CSS3, HTML5, Redux, Pinia, Context API, Responsive & accessible design
Backend / Server: Node.js (Express, NestJS), PHP, Python, Java, C#, RESTful APIs, Authentication & Authorization (JWT, OAuth), WebSockets, Socket.io
Database / Data Management: MongoDB, MySQL, PostgreSQL, Firebase, Firestore
DevOps / Tools / Integrations: Git & GitHub, Docker (basic), CI/CD (GitHub Actions), Stripe, Google Cloud Platform (GCP)
